Art of Storytelling with Children is a Must to Join!

If you are interested in the art of storytelling, this is the place to discover what it is all about. If you are already knowledgeable about the art, this is the place to refine your understanding. Eric Wolf has created a place to learn about the art of storytelling in a wonderful interactive manner. He has distinguished experts (performing, working with children, youth storytellers, and conference organizers..) in the field provide their time and knowledge. He provides a space to ask them questions. Everyone has a story to tell, but this show helps you know how to tell it better. Every interview is a gift!

Youth Storyteller's Alliance

I listen and learn.

Well, I just want to chime in and say what a VALUABLE RESOURCE this podcast is in my life. When my paperwork piles up and it's unpleasant outside, I hunker down and turn on these conversations. I SO ENJOY hearing knowledge people who have spent a lot of time in a practical area waxing on elegantly (or not) on

their topic. I find Eric to be provocative and supportive of these luminaries, some well known and others completely new. It's just a wonderful resource! Out here in the middle of the Pacific, these Art of Storytelling with Children has proven to be a golden opportunity to go on delicious field trips. BRAVO!
